

ISO 9001:2015 Certified Company

**CADENT**  
COMPONENTS LLP

**Manufacturers of Precision Metal Components**

## Your Metal Solutions Partner's

CADENT COMPONENTS LLP is your trusted partner in precision manufacturing of turning and forging components. With a relentless commitment to excellence, we specialize in producing high-quality parts made from both ferrous and non-ferrous metals. Our state-of-the-art manufacturing facilities is equipped with the latest CNC machines, VMS Inspection machine and is operated by a team of skilled and experienced team, and unwavering dedication to quality make us the ideal choice for your manufacturing needs. We have all in-house process from scrap to casting to finished product.

With years of experience, we have mastered the art of shaping metals to meet your exact specifications. We specialize in the production of a wide range of components that cater to various industries like Automobile, Pneumatic, electrical and electronic industries, hardware, plumbing and Sanitary, and agriculture industry. Additionally, we provide material test report, so our customer can be confident in quality of material used in their products.

Your success is our success, and we are committed to helping you achieve your manufacturing goals.

- Experienced & Skilled Team Members
- Modern & Innovative Manufacturing Unit
- ISO Certified Company

## Materials We Work With

At CADENT COMPONENTS LLP versatility is key. We work with a wide range of materials to meet your specific needs, including:

### FERROUS METALS:

- Steel
- Stainless Steel
- Iron

### NON-FERROUS METALS:

- Aluminium
- Brass
- Copper
- Bronze

## Why Choose Us

Quality is at the core of our operations. We adhere to strict quality control measures to ensure that every component leaving our facility meets or exceeds industry standards.

### Dedicated Support

Our team is committed to providing you with exceptional customer service and support throughout the entire manufacturing process.

### Custom Solutions

Every project is unique. We work closely with our clients to design and manufacture components that meet their exact requirements.

### Punctual Delivery

We understand the importance of time in your industry. Our efficient production processes enable us to provide you with quick turnarounds without compromising quality.

## About Us

We are specialised in manufacturing of turning and forging components made of both ferrous and non-ferrous metals. Over the years we have continuously upgrade our systems and technology to provide our customers with best quality at competitive rates. We can assure strong transport worthy packing, timely supply, competitive rates, prompt and personal attention at all times.

Our skilled labour force, coupled with our advanced machinery, enables us to produce components that meet the most demanding specifications. We use only the highest quality materials and adhere to strict quality control standards throughout the manufacturing process to ensure the end products meet our customers' expectation.

## We Provided Best Services

We are committed to meeting and exceeding industry standards to ensure that every component we produce is of the highest quality.

## Manufacturing

Components are manufactured under supervision of highly qualified, skilled and technically experienced engineers utilizes the latest technologies to ensure the highest level of precision, quality, and performance.

## Modern Infrastructure

Our commitment to excellence extends to our technology and equipment. We invest continuously in cutting-edge CNC machines and inspection equipment to maintain our position at the forefront of the industry.

## Work Process

To accomplish our project goals, we follow very clear work process. Our skilled team members follow these steps to achieve desired goals and objectives.

## Quality

Quality is the cornerstone of our operations. We are committed to meeting and exceeding industry standards to ensure that every component we produce is of the highest quality. Our stringent quality control processes and advanced testing equipment guarantee that our products are reliable, durable, and precise.

Our quality assurance team is trained and well experienced. We have lab area with modern equipment's. We have established separate department for final inspection. We are a team of professionals focused on manufacturing the highest quality products at a fair value that meets and exceeds our customer's expectations. Every employee of the company is committed to the pursuit of excellence with continuous improvement of the Quality Management System.

Our target is to provide zero defects products to client which is remarkable in industry. To meet the global demand, we take care at every stage right from raw material purchase to finished goods. Our quality assurance team is trained and well experienced. To achieve the maximum standard our quality control team continuously monitors the products and Variety of Materials.

## Quality Manufacturing Is Our Aim.

## Quality Control

Our quality control department ensures that each product is manufacturing with controlled process according to given task and quality of parts are maintained throughout entire process. For ensuring products are free from all kind of faults, we test our products with rigorous controls along with supplementary test like process control, assembly line control, quality control, material control, dimensional control, leakage and pressure control. We can also provide inspection and testing reports to our clients if they require. Because of our ethical business policies, we are able to serve our all esteemed clients which are located across the globe.

## Quality Policy

We are responsive for customer needs and provide satisfaction with our sincerity and ceaseless efforts. To become customer centric company we supply quality products at competitive price in given time frame and provide excellent client support.

### Quality Equipments

Instruments are heartbeats of industry. To assure good quality of products, quality instruments are required. Company has invested a good amount to have all type of equipments including all instruments and gauges along with the profile projector and other sensitive instruments.

### Inspection

Company has unique Inspection facility to achieve the goal to zero defects and rejection of any products manufactured. Well experienced and regularly trained technocrat engineers, carry out the Inspection on each Individual product. Batch Inspection is not permitted in the company.

## Brass CNC Turned Components

We are engaged in offering a wide range of Brass CNC Turned Components to our clients at a reasonable cost. Our turned components are made using quality raw material such as high and fine grade brass to assure quality and reliability. We manufacture all types of Brass turned components depending upon client's requirement for application in any industry. The range of Brass Turned Components find wide application in machine building, automobile, hydraulics and general engineering industry. Our turned components are tested on numerous parameters to assure it on counts of quality.

## Brass Electrical Components

We are manufacturing all Kinds of Brass Electrical Components, Brass Electrical Parts and Brass Electrical Fittings like Electrical Plug Pins, Sockets Pins, Brass Electrical Components, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts. Brass Electrical Components for various industries including Power Generation, Electronic Industry, Solar Energy, Automotive Industry, Medical Industry, Electrical and Engineering Assembly.

## Brass Precision Components

We are offering the high-quality collection of Brass Precision Components to our valuable customers. Designed and developed from high-grade materials, the products offered by us are usage in the Connectors, Electrical & Electronics, Instrumentation, Telecommunication, Automotive, Medical & Surgical and Industrial Assemblies. The offered products are available with us at most economical prices within the committed span of time.

## Brass Fittings

Brass is widely used in manufacturing brass fittings, plumbing fittings, flare fittings, garden hose fittings, compression fittings, transmission fittings, pipe fittings & threaded fastening, due to its excellent qualities as rust-resistance, hardness, wear-resistance, high tensile strength, durability and flexibility.

## Brass Earthing Accessories

Earthing System is very essential to be properly designed & installed to safeguard both lives & the equipment. Sometimes it happens that though the earthing system is installed, current leakage is felt & short circuit may happen. To avoid this a correct Earthing System embracing correct earthing accessories is very important to take care of. Corrosion resistance, conductivity and mechanical strength are essential considerations in earthing accessory design to ensure an earthing system remains operative for many years. Earthing Accessories have high quality copper alloy material which provide wanted strength to the part to ensure its proper mechanism.

## Brass Forging Components

We are specialized in Manufacturing of Brass Forging Components. We can Manufacture any type of Brass Forging Components, Brass Forging Parts, Brass Forging Fittings, Brass Forged and Machined Parts, Brass and Gunmetal Die Casting Components for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary Fittings, Agricultural Equipment, Automotive Parts, LPG and CNG Valve Fittings, Electrical and Engineering Assembly. We have a Unique Manufacturing Facility to develop Brass Forging Components as per customer's designs and requirements.

## Brass Automobile Components

We are specialized in manufacturing and customizing any kind of automobile parts as per customer requirements and CAD drawings. We are using excellent quality raw materials and advanced technology to ensure the high durability and anti-corrosive property of automobile parts. All our automobile parts are compliance with the international standards and industry norms. Our offered range of automobile parts are widely appreciated by customer in domestic as well as international market for its accurate dimension, precious design, high performance and flawless finish. Automobile Parts are widely used in all kind of vehicles and automobiles as replacement and repairing parts. Our automobile parts are precisely tested and inspected before its final delivery to ensure defect free and high-performance product. We are capable to manufacture standard as well as custom automobile parts in-terms of dimension, size, material, shape as per customer specification & requirements.

## Brass Electronic Components

We manufacture and export precisely engineered Brass Electronics Components which are used in different machines and equipment. The wide range of Brass Electronics Components are widely appreciated for their durability and reliability. The range of Brass Electronics Components are manufactured in different standards, grades and finishes. Brass Electronics Components are widely used in different electrical and engineering industries.

## Brass Hardware Parts

Our extensive experience as manufacturers of building hardware like brass hardware, door hardware, wrought iron hardware and many more coupled with our export capabilities that have been build over the years, we have established ourselves as a major player in the international market. Our company observes high quality production techniques along with a keen aesthetic sense of design, which ensures complete customer satisfaction. Endeavoring to excel in every aspect of the production and servicing, we are expanding our export capacity and constantly upgrading ourselves with the latest technology.

## Brass Sanitary Parts

The Brass Sanitary Parts manufactured by us are made from quality brass materials which ensure durability and quality. Our wide gamut of Brass Sanitary Spare Parts include Brass Tee, Brass Elbow, Brass Union, Brass Socket, Brass Coupling, Brass Bush, Brass Plug, Brass Stop Plug, Brass Adapters, Brass Couplers, Male/Female Pipe Fittings, Hexagonal Reducing Nipple, Stop Plug, Bush, Male/Female Adaptors, Female Connectors and Hose Jointer.

## Brass Agriculture Parts

We are privileged to offer wide range of Brass Agriculture Parts. The material used in manufacturing of Brass Agriculture Parts ensures high durability and tensile strength. These Brass Agriculture Parts are used in agricultural field, and are free from rust. Available in unique dimensions we develop the Brass Agricultural Parts as per customers' drawings and samples. Excellent management team, production team & marketing team expertise with intensive market analysis enables us in manufacturing a range, which stands high on accuracy and is offered at competitive rates.

## SS Components

We Manufacture Stainless Steel Turned Components, Stainless Steel Machine Components, Customized Stainless Steel Components, etc. Our products are known in the market for their superior varieties and durability. These are widely appreciated for their sustainability, reliability, and precise designs. We ensure the most reliable products which are available in the best specification at the most profitable price range. Our products use in many industries like Automotive, Material Handling, Textile Industry, Medical and Engineering Sectors.
